charity lights hope

This styleguide establishes the visual foundations of Al-Anwaar, ensuring consistency across every application of the brand.

It outlines the principles behind our brandmark, typography, colour palette and supporting elements, providing a unified framework that reflects our commitment to charity, generosity and hope.

Through a considered and cohesive visual identity, we aim to communicate our purpose with clarity, integrity and timeless relevance.

الأنوار
al-anwaar

Al-Anwaar (الأنوار) translates to "The Lights" in Arabic, symbolising illumination, guidance and hope.

Rooted in the idea that every act of charity can bring light into someone's life, the name reflects the organisation's commitment to serving humanity through generosity and compassion.

It represents the collective impact of giving, where each contribution becomes a source of light for those in need and a lasting legacy for generations to come.

Brandmark

رمز بصري

Beauty of Islamic Geometry

The Al-Anwaar brandmark draws on Islamic geometry and visual heritage to create a contemporary identity rooted in meaning.

Islamic Geometry

STRUCTURE AND UNITY

The hexagonal form draws inspiration from Islamic geometric principles, creating a sense of balance, harmony and interconnectedness.

The Dome

ISLAMIC HERITAGE

Positioned above the mark, the dome references Islamic architecture, grounding the identity in a familiar cultural and spiritual visual language.

Kufi Typography

CULTURAL IDENTITY

The Arabic lettering الأنوار is rendered in a geometric Kufi-inspired style, integrating the organisation's name into the structure of the brandmark.

The Illuminated Doorway

LIGHT, HOPE AND GUIDANCE

Housed within the wāw, the doorway reveals an illuminated interior, symbolising the hope and guidance that charity brings to those in need.

Together, these elements form a unified mark that communicates Al-Anwaar's purpose through a balance of Islamic heritage, geometric precision and meaningful symbolism.

"Geometry enlightens the intellect and sets one's mind right. All its proofs are very clear and orderly. It is hardly possible for errors to enter into geometrical reasoning, because it is well arranged and orderly."

— Ibn Khaldun

"The example of those who spend their wealth in the way of Allah is like a seed [of grain] which grows seven spikes; in each spike is a hundred grains. And Allah multiplies [His reward] for whom He wills."
